RE: RIGHT TO COMMENT

Monte Vista High School Parking Lot

Solar Installation

Final Design, Height, Appearance from surrounding elevations

Dear Mr. Gardner:

The Alamo Improvement Association wants to provide community input and comment on the projected Solar Installation for the Monte Vista High School Parking Lot.

Our concerns about this project are based upon similar installations and their features, such as the one located on the Diablo Valley College campus.

We intend to have this item on our June Board Meeting agenda for public comment and provide a letter to you summarizing the results.

It is our understanding that this project is designed as a “carport” with solar paneling located on the top.

Specifically, we need to know the exact height of the installation and have accurate views of the top as it appears from surrounding elevations.

We would like to secure this information prior to our June 9th meeting.

Please advise me on the method of securing this information.

Sincerely,

Roger F. Smith, President
